Sophisticated, beautiful and charming!

There's always a woman where beauty and charm exist. Touraine by Drexel was inspired by the great taste-makers of France, Madame Pompadour and Madame DuBarry. It captures for you the serenity and graciousness of their great country estates along the Loire . . . and the sophistication of the magnificent salons of Paris. Frankly feminine, it is at home everywhere in America.

You'll enjoy the gracious curves, the handsome chateau walnut finish in your living, dining and bedrooms. The elegant Bergere upholstered chairs, and the grille enhanced china will win laurels wherever you place them in your home. In addition to the Bordeaux Walnut finish, we have lacquered all of the bedroom pieces in the favorite gold and white of Madame Pompadour. There's even a glamourous gold-leaf bed, mirror and bench for your personal and private world. And for those complete romantics, you'll find a whole bedroom grouping decorated with charming, dainty, hand-painted flowers.

We, at Drexel, feel proud to be able to present to you such a beautiful, versatile collection at such reasonable prices. Each piece of Touraine is carefully and meticulously constructed, each is scaled for living graciously today. We know that you are aware of the excellent finishes, the custom hardware that garnishes all Drexel furniture. You can expect such attributes in every piece with the Drexel brandmark. This is our hallmark of fine quality at prices wise in the ways of family budgets . . . not too much, or too little . . . but just right.

Be sure to use the line sketches included in this booklet . . . it will make your home planning easier and more enjoyable. Then see your dealer. Begin to live with the charm and beauty of Touraine by Drexel.
